When a census page change occurs in the middle of a household--the first person (of this household) to appear on the next census page will have a page number following their name. Also, a notation following the Dwelling # and the order of Visitation #, indicates that this household can be found on two census pages.

When a census page change occurs in the middle of a household--the first person (of this household) to appear on the next census page will have a page number following their name. Also, a notation following the Dwelling # and the order of Visitation #, indicates that this household can be found on two census pages. Example: 2177-2183 census pages 853 & 854.
